Pocket Digital Weight Scale

5.2" X 3"

Every good coffee and tea specialist needs a high quality scale. This accurate measuring device is capable of weighing up to 17.4 ounces or 500grams in weight. A convenient Tare function allows user to compensate for the weight of the paper filter or any other device holding the medium you wish to weigh. Whether your checking your fractional packs of coffee or working in the lab performing brew analysis, the pocket scale from Newco makes life a little easier and a lot more accurate.
